

SINGLE COILING PAN SYSTEM FOR WIRE & CABLE

*Taymer SingleCoiling Pan
System SCP-500*

FEATURES

- *Single or Dual coiling pans for simple collection of long wire lengths*
- *Easily integrated with hot stamp wire markers, inkjet printers, laser markers, pull/measure/cut/strip wire processors*
- *Coil up to 0.350" diameter wires*
- *Very little maintenance*
- *Adaptable and Portable Design*
- *Different coiling pan sizes available*
- *Customization options to meet your specific requirements*
- *Optional automatic tie wrap system*

The *SCP-500* is a simple wire coiling system that enables you to save time and money in your wire harness facilities.

What's more, the *SCP-500* is designed to be adaptable and portable benefiting wire harness manufacturers who need to integrate coiling with existing wire marking and processing systems.

The *SCP-500* comes with a single coiling pan and wire guide tube. The optional second coiling pan will improve productivity and allow your wire processor to keep moving while the other pan is being unloaded.

An automatic tie wrap system can also be added, enabling the *SCP-500* to produce neat, tied coiling bundles of wires in one operation. Different sizes of coiling pans are also available.

The *SCP-500* can also be customized to meet your exact requirements. Please contact us for more details.

SPECIFICATIONS

- Maximum Speed 150 ft/min (50 m/min)
Optionally up to 300 ft/min (100m/min)
- Wire Size Up to 0.250" (6mm)
Optional up to 0.350" (8mm)
- Coiling Pan Diameters 6", 8", 10", 12"
(150mm, 200mm, 250mm, 300mm)
- Coiling Pan 1 or 2 (optional)
- Pans Changeover Quick release mechanism to
remove coiling pan
- Weight 30lbs (single pan)
14 kg
- Dimensions 16" X 16" X 12"
(L X W X H)
406mm X 406mm X 305mm
(L X W X H)
- Inputs Control signal from printer / wire processor
External manual on/off switch
- Safety Protective guard with safety interlock access door
Enclosure against pinch points
Emergency stop button
- Mount Bench-top
- Power Requirements 110V or 220V
